Baby Bitch

Ween

It's been a while since I've seen you smile But now you've come back again Came into the room and you saw my girl And you asked her how long it's been "A year", she said and you shook your head Said, "I'm surprised it's gone on that long"Baby, Baby, Baby Bitch For words I am at a loss Baby, Baby, Baby Bitch I'm better now please fuck off What else you gonna say when while you're back on your stay Maybe something, maybe nothing, we'll see It's just too bad, you're beautiful I guess I wasn't for you and you weren't for meBaby, Baby, Baby Bitch Please slip back into yourself Baby, Baby, Baby Bitch Go conquer someone elsePeople say, "How beautiful, how sweet, how kind" You're perfect, you've got nothing to hide But I, for one, have seen the sun And the bitch that you've locked up insideGot fat, got angry, started hating myself Wrote "Birthday Boy" for you babe Now I'm skinny and sick and paranoid Without a cent to my name Baby, Baby, Baby Bitch Fuck you, you stinkin' ass ho Most beauty I've seen, you come from a dream
