

Ping Pong

Stereolab

it's alright 'cos the historical pattern has shown
how the economical cycle tends to revolve
in a round of decades three stages stand out in a loop
a slump and war then peel back to square one and back for more bigger slump and bigger wars
and a smaller recovery
huger slump and greater wars and a shallower recovery you see the recovery always comes
'round again
there's nothing to worry for things will look after themselves
it's alright recovery always comes 'round again
there's nothing to worry if things can only get better
there's only millions that lose their jobs and homes and sometimes accents
there's only millions that die in their bloody wars, it's alright it's only their lives and the lives of
their next of kin that they are losing
it's only their lives and the lives of their next of kin that they are losing it's alright 'cos the
historical pattern has shown
how the economical cycle tends to revolve
in a round of decades three stages stand out in a loop
a slump and war then peel back to square one and back for more bigger slump and bigger wars
and a smaller recovery
huger slump and greater wars and a shallower recovery
don't worry be happy things will get better naturally
don't worry shut up sit down go with it and be happy dum, dum, dum, de dum dum, de duh de
duh de dum dum dum... ah ah
dum, dum, dum, de dum dum, de duh de duh de dum dum dum... ah ah
