

Grow (feat. Leo Stannard)

Kidnap

Grow versuri Kidnap

I will trace the footsteps that once we walked for years

Lies there leads us right back leads us right back here

And time will always march on but not far around

But love will always leads us right back leads us right back hereI say oooooh!

My friend will you dance all night with me

I say oooooh! versuri.us

My friend will you dance all night with me
