You Make Me Smile (Instrumental)

Aloe Blacc

Mmm, make me smile, baby
Mmm, make me smileI think it's safe to say
Things just haven't been going my way
No work coming in so my money is spent
And I still got bills to payBut all in all you've been right here with me
When I'm sinking low, you come through and lift me
It's nothing more than the love that you give me
Keeps me from drowning in tearsYou make me smile, whoa, make me smile
You make me smile
You come through and save the day
You make me smile, you make me smile
You make me smile in a very special way
Everywhere I go people seem to ask me
Where I'd get my joy, why am I so happy?
In these trying times when a frown is the fashion
I'm beaming like the sun, now how can that be?See the answer to the query is very simple
I'm always grinning from dimple to dimple
Because you love me unconditionally
My happiness is heart sake, can't you see?Can't you see when you're gone, girl
I just don't know what to do
Everything about you, girl
Everything revolves around you
And I won't thank you for making me smileYou make me smile, whoa, make me smile
You make me smile
You come through and save the day
You make me smile, you make me smile
You make me smile, oh, in a very special way
You make me smile, you make me smile, ooh
You make me smile
Love the way you make me hold my head up high
You make me smileYou make me smile, you make me smile
Feel like I can walk in the sky
You make me smile
When nothing's going my way what else can I say?You make me smile
When I can't see the light, here you come, shining bright
You make me smile
When everything's bad and I'm feeling real sadYou make me smile
When I don't have the answers
You always gave me a chance to smile
You make me smile, smile, smile
