

Vixen

Miguel

Let's play a little game
Just between you and I
Obviously physical
You gotta use your mind
We can be cops and robbers
Tarzan and Jane, Marilyn and Robert
But either way the objective is the same
To please and entertain You can be my vixen
My bed'll be your stage
We will get the spotlight all night
Each and every time we play
You will be my vixen
As we improvise
Delivering a captvating performance every time
Why not be creative
Pull out all the stops
You can pick the scene
If I can pick the props
Do you prefer classroom or office
Masquerade expert or novice
We can play
The objective is the same
To please and entertain You will be my vixen
My bed'll be your stage
We will get the spotlight all night
Each and every time we play
You will be my vixen
As we improvise
Delivering a captivating performance every time
Baby together we can't lose
And I know you're always down for something new
When we're making love let's put on a show
Until the curtains close You will be my vixen
My bed'll be your stage
We will get the spotlight all night
Each and every time we play
You will be my vixen
As we improvise
Delivering a captivating performance everytime You'll be my vixen My bed'll be your stage
You will get the spotlight all night
Each and every time we play
You will be my vixen

As we improvise
Delivering a captivating performance every time
So would you like to play
Be my vixen
You always said you wanted to be an actress
