

# Looking at Stars

Kelsea Ballerini

The night is young and so are we  
so whatcha say we go and see it all for our selves?  
Yeah, yeah  
There's a spot I know down the road we can go, only me and you  
No one else, yeah, yeah  
I ain't looking for a crowd, another night on the town  
I want a one way ticket for the cricking crickets are the only sound()  
So baby pick me up, count me in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river get out and throw the tailgate down down down  
You can steal a kiss  
Maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms  
Laying in the dark looking at stars  
We can name them constellations while we're making wishes,  
don't it make you feel so small?  
Yeah, yeah  
We can talk about forever for a little maybe never just kiss  
and say nothing at all  
Yeah, yeah  
Baby hurry up and get here so we can disappear  
If the clouds are breaking don't keep me waiting  
Never seen a night this clear()  
So baby pick me up, count me in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river get out and throw the tailgate down down down  
You can steal a kiss  
Maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms  
Laying in the dark looking at stars  
OooooOooo  
MmmmI ain't looking for a crowd, another night on the town  
I want a one way ticket for the cricking crickets are the only sound()  
So baby pick me up, count me in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river get out and throw the tailgate down down down  
You can steal a kiss  
Maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms

Laying in the dark looking at starsOooOoo, yeah

OooOo, yeah

Mmmmmm, just looking at stars\*End\*
