

Drag You Down

Finger Eleven

It's biting it's teething it's biting I'm bleeding
It's calling it's crawling it's calling and I'm fallingThe perfect sound of middle ground
Pull me under before I try to drag you down
Someone has to pull me under before
I try and drag you, drag you, drag you downThey're fighting they're growing they're fighting
and they're growing
I'm biting I'm teething I'm biting and bleedingThe perfect sound of middle ground
Pull me under before I try to drag you down
Someone has to pull me under before
I try and drag you, drag you, drag you downbiting and teething and bleeding
The perfect sound of middle ground
Pull me under before I try to drag you down
Someone has to pull me under before
I try and drag you, drag you, drag you down
