Party Favors (feat. Young Thug)

Tinashe

I feel like I'm the highest in the room
I feel like I could fucking kiss the moon
See shawty over there, bitch looking at me, she kinda cute
See a nigga over there, he's steamin' on up like ramen soupI've been tripping, high off blue dream

Breathe into me, you know
Inhale, exhale, I'm so dizzy
They can't see me, I'm gone
Woah, oh, they don't go as hard as I do, oh
I brought some to the party for you, oh
I'll mix it up and serve it for you

Party favors for you Party favors for you

Oh, I got some party favors for you Oh, I got some party favors for you

Oh, yeah baby I got that special just for you

Oh, I got some party favors for youClouds of smoke are rising in the air

I feel their eyes when everybody stare

See a hater over there, they scheming on me cause I'm the truth I'm with my homies over here and we ain't got no love for youI've been tripping, high off blue dream

Breathe into me, you know Inhale, exhale, I'm so dizzy They can't see me, I'm gone

Woah, oh, they don't go as hard as I do, oh

I brought some to the party for you, oh

I'll mix it up and serve it for you

Party favors for you

Party favors for you

Oh, I got some party favors for you

Oh, I got some party favors for you

Oh, yeah baby I got that special just for you

Oh, I got some party favors for youWhat you lookin' for?

I got that for sure

Keep it on the low

Before it goes wrong

Hope we come down slow

Forget tomorrowOh, I got some party favors for you

Oh, I got some party favors for you

Oh, now baby I got that special just for you

Oh, I got some party favors for you
