Late Night Feelings (feat. Lykke Li)

Mark Ronson

I weigh the water, I feel it all
I ask myself a million questions in the dark
I lay in silenceBut silence talks
It tells me heaven is no closer than it wasMy heart keeps pulling in the wrong direction
I'm about to cross the line
Looking for the wrong affection
Night after nightTrying to find a new distraction
Want to make it last all night
Everything that I've been mixing
All mixed up inside
When I get to want ya
And I wanna call ya
With late night feelings
When I get to want ya
And I wanna call ya
With late night feelingsOn and on and on
Feeling on and on
On and on, on and on
With late night feelingsMake me psychotic, you pull away
You take the sane in me
And tear it like a page
Write you erotic
And I know you wait
Before you answer
Just to make me go insane
My heart keeps pulling in the wrong direction
I'm about to cross the line
Looking for the wrong affection
Night after night, I'm
Trying to find a new distraction
Want to make it last all night
Everything that I've been mixing
All mixed up insideWhen I get to want ya
And I wanna call ya
With late night feelings
When I get to want ya
And I wanna call ya
With late night feelingsOn and on and on
Feeling on and on
On and on, on and on
With late night feelingsOn and on and on
Feeling on and on

On and on, on and on
With late night feelingsOn, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and on
On, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and onOh-oh, keeps pulling in the wrong direction
I'm about to cross that line
Looking for the wrong affection
Night after night
Trying to find a new distraction
I wanna make it last all night
Everything that I've been mixing
All mixed up insideWhen I get to want ya
And I wanna call ya
With late night feelings
When I get to want ya
And I wanna call ya
With late night feelingsOn and on, feeling on and on
On and on, on and on
With late night feelings
On and on, feeling on and on
On and on, on and on
With late night feelingsOn, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and on
On, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and on
On, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and on
On, on and on and I feel it all night
On, on and on and I feel it all night
On, on and on, on and on, on and on, on and on
On, on and on, on and on, on and on, on and on
