

Bitch

Sevendust

I can't imagine to be like you
The pain and the suffering you put me through woah
I can't imagine to be like you
The pain and the suffering you put me through Don't tell me
I can't imagine to be like you
All the pain and the suffering I go through
You surround yourself with evil
Every night that you have is an equal Don't hesitate
Or you'll live in your own hell
Out of my way
You're surrounded by evil
Don't hesitate
You can get away
Out of my way
Out of my way (huh)
The dark clouds that follow you
The rainy days will always find you
You can never get away
Evil comes another day Don't hesitate
Or you live in your own hell
Out of my way you're surrounded by evil
Don't hesitate, you can't get away I can't imagine to be like you
The pain and the suffering you put me through woah
I can't imagine to be like you
The pain and the suffering you put me through Step up and
I can't imagine to be like you
All the pain and the suffering I go through
You surround yourself with evil
I hope it catches you up
I can't imagine to be like you
The pain and the suffering you put me through woah
I can't imagine to be like you
The pain and the suffering you put me through
I can't imagine to be like you
The pain and the suffering you put me through WOAHH!
I can't imagine to be like you
The pain and the suffering you put me through
