

# Cold

## One Bit

I think we lost our way, darlin'  
Why you hidin' pain  
Your tears are leavin' stains, on me  
They won't wash away Like they used to  
Back at the start  
When you knew  
What's in your heart  
Was too  
Too much to hold  
But you didn't have to be so cold  
To me(x4) You didn't have to be so cold  
To me  
You're drivin' me insane, darlin,  
Each and every way,  
But you won't turn and face, to me  
Cuz' you cause all the pain Like you used to  
Back at the start  
When you knew  
Before my heart  
Was too  
Too much to hold,  
But you didn't have to be so cold  
To me(x4) You didn't have to be so cold  
To me Blinded by the dust,  
As our foundations run  
My tears that you have made  
They don't wash away  
Like they used to  
They won't wash away  
Like they used to,  
You didn't have to be so cold  
To me
