

# Give Me Reason

## Butcher Babies

Give me reason  
Give me reason  
Give me reason  
Reason!  
Reason! Too fast to kill  
Moves against my will  
Don't you ask for more  
It'll come in full  
Deadly sins have  
Looked my way  
One by one they're killing me  
Always wanting  
More and more  
Give me reason  
The strong will win  
It's the number one sin  
Your hate has  
Judged the weak  
To break them in  
The spider in your vein  
Controls the cancer in your brain We were born to die  
And this is how I try It's my way to say goodbye Give me reason  
Give me reason  
Give me reason  
Crossed this path  
I'm not looking back  
Looking back I have a death pact  
With myself  
Single barrel on the shelf  
So let's make it real  
Spin the fucking wheel  
The spider in your vein  
Controls the cancer in your brain Fantasy dreams  
Forced down my throat  
Hear me scream  
Break the chains of this hold I have a death pact  
With myself  
Single barrel on the shelf  
So let's make it real  
Spin the fucking wheel It's my way to say goodbye Give me reason  
Give me reason  
Give me reason

Crossed this path  
I'm not looking back  
Looking back Give me reason  
Give me reason  
Give me reason
