

On the Road

Buddy Guy

Got a blue Mercedes with a snakeskin top
Gonna keep on driving, I'll never stop
My baby's riding in a shotgun seat
Don't let no grass grow under our feet I'm on the road, yes, I'll take it on the road
Give it some juice, turn my motor loose
On the road This ride of mine got a rambling soul
Got a built-in bar to keep the Cokers cold
I point to the east and I pointed west
What my baby wants, you know my baby gets
On the road, yes, I'll take it on the road
Give it some juice, turn my motor loose
On the road She got a body that keeps all cool
Thunder and lightning, up on the hood
I tune her up, never let her down
You know we're ready, now we're highway bound
On the road, hey, I'll take it on the road
Give it some juice, turn my motor loose
On the road Give it some juice, turn my motor loose
On the road
