Want You

Ayo Jay

It's one nation
Eh, Eeeeeh
They call me boy wonder
Ooooohhh
I'll tell you the truth
Butterflies here when I look at you
I'm loving the way you make me feel

I had to talk to you I had to

So what's your name and where you from I have a feeling you're the one (feeling you're the one)

I may be right or wrong

But I wanna know

Are you coming along with me

Cause I

I wanna spend time with you I wanna spend my money on you

And I

I wanna spend time with you I don't even have a clue girl

What we gon' do

Do you realize everything will be alright

You got everything I like

So believe me when I say

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you, want you I really want you

I really want you, want you, want you want you, want you, oh Girl I hope you want me too

Ooooh

Girl I hope you want me too

Maybe one day, ah

Maybe one day

When I kiss those lips

Baby one day

Can we go see movie on a Monday

Got the club going up on a Tuesday

See, got to go to work on a Wednesday

Or you got to go to scchool on a Thursday

Friday, we'll be turning up on a Friday

Or on a Saturday chill on a Sunday

Cause I

I wanna spend time with you

I wanna spend my money on you

And I

I wanna spend time with you

I don't even have a clue girl

What we gon' do

Do you realize everything will be alright

You got everything I like

So believe me when I say

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you want you, want you, oh

Girl I hope you want me too

Ooooh

Girl I hope

You know that I am the right dude, yeah

I don't want no one (don't want no one)

Besides you (no one besides you, yeah)

Never seen a thing

Never seen nothing like you (never seen nothing, yeah)

All I wanna do is give you a title

I swear on the Bible

Cause I

I wanna spend time with you

I wanna spend my money on you

And I

I wanna spend time with you

I don't even have a clue girl

What we gon' do

Do you realize everything will be alright

You got everything I like

So believe me when I say

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you want you, want you, oh

Girl I hope you want me too

Ooooh

Girl I hope you want me too

I really want you

I really want you, want you, want you, want you

I really want you

I really want you, want you, want you, want you
I really want you

I really want you, want you, want you want you, want you, oh Girl I hope you want me too

Ooooh

Girl I hope you want me too

Cause I

I wanna spend time with you

I wanna spend my money on you

And I

I wanna spend time with you

I don't even have a clue girl

What we gon' do

Do you realize (do you realize, yeah)

Everything will be alright

You got everything I like

So believe me when I say
