

Shallow

Ivy

Shallow, shallow
Shallow, shallow She's in love again, oh, yeah
Rise above again, oh, yeah
His number's fading on her hand
And it's a day to remember Shallow, shallow
Shallow, shallow What an easy game to play
What a perfect thing to say
He tells her, "You're the world to me
Why don't we dive in together"
Shallow, shallow
Shallow, shallow Sun dies on a beautiful show
Dream on 'cause there's nowhere to go
He'll say what she's wanted to know
Over and over, forever Shallow, shallow
All we ever had to be
All we ever wanted to be Shallow, shallow
All we ever had to be
All we ever wanted to be
Shallow, shallow
All we ever had to be
All we ever wanted to be Shallow, shallow
All we ever had to be
All we ever wanted to be
