

# That Was Us

Kip Moore

That Was Us  
Kip Moore Me and Teddy used to burn that old Chevy  
All the way up to Mary Lee's  
One of the guy's a kind of ride or die  
And we were thick as thieves  
The whole damn town said when we come around  
We're as mean as a four letter word  
Up to no good fun but we didn't have much  
Just a whole lotta time to burn  
So if we got high, we got stoned  
If there was a fire, we got it on  
If there was a backseat, we made love  
That was then and that was us We crossed the county line for a kegger one night  
There were some girls we had never seen  
Teddy had his eye locked on a dime  
And said she was lookin' at me  
Standin' there sippin' on smoke  
And a cheap ass bottle of wine  
She said "My name's Kate, you're my kinda crazy  
And it takes one to know one" So if we got high, we got stoned  
If there was a fire, we got it on  
If there was a backseat, we made love  
That was then and that was us  
Mary Lee started hangin', started talkin'  
With a boy with a checkered past  
It wasn't long before he showed his true colors  
And they left it all blue and black  
Cops stopped us runnin' ninety  
With a loaded pistol and a bottle of booze  
And it's a good damn thing the blue lights  
Got us 'fore we'd get what we was goin' do So if we got high, we got stoned  
If there was a fire, we got it on  
If there was a backseat, we made love  
That was then and that was us
