

# Right Time

## Hayden James & Icona Pop

(Right time)  
(Baby it's the right time)  
(Hands up to the skyline)  
(We could do this every night) We can go for days  
We can go for nights  
We can go for weeks at a time  
We can go for life Lost in the rhythm like that  
Give me some love and I give it right back  
Lost in the middle like that  
Give me one touch and I give it right back Sun in the sky but the party ain't over  
Turn on the lights but nobody is sober  
Almost goodbye but then you pull me closer  
High as a kite but the party ain't over  
Right time  
Baby it's the right time  
Hands up to the skyline  
We could do this every night and all our lives  
Just move me  
Look what you're doing  
Show me you can move me  
Move We could live it up  
We could shut it down  
We could turn it all around  
Don't you stop it now Lost in the rhythm like that  
Give me some love and I give it right back  
Lost in the middle like that  
Give me one touch and I give it right back  
Sun in the sky but the party ain't over  
Turn on the lights but nobody is sober  
Almost goodbye but then you pull me closer  
High as a kite but the party ain't over Right time  
Baby it's the right time  
Hands up to the skyline  
We could do this every night and all our lives  
Just move me  
Look what you're doing  
Show me you can move me  
Move (Sun in the sky but the party ain't over)  
(Turn on the lights but nobody is sober)  
Almost goodbye but then you pull me closer  
High as a kite but the party ain't over Right time  
Baby it's the right time

Hands up to the skyline  
We could do this every night and all our lives  
Just move me  
Look what you're doing  
Show me you can move me  
MoveRight time  
Baby it's the right time  
Hands up to the skyline  
We could do this every night and all our lives  
Just move me  
Look what you're doing  
Show me you can move me  
Move
