

Criminal

State Champs

So what's it mean
When every dream I have's about you now?
I can't believe
You get to me the way you do somehow
It's criminal Believe me
It's easy to let this cut deeper
The taste could be sweeter, come on
You're too strong
And far gone
I'll keep my composure, just tell me
What this is really all about
I feel you tearing down
Castles in my head
When we're in different beds
So what's it mean
When every dream I have's about you now?
I can't believe
You get to me the way you do somehow
It's criminal I'm sideways
Can I say you pull me to pieces
Just tell me your secrets, come on
For what it's worth
I'm more concerned with how you got me here in the first place
I guess you're really all about
I feel you tearing down
Castles in my head
When we're in different beds
So what's it mean
When every dream I have's about you now?
I can't believe
You get to me the way you do somehow
It's criminal Believe me
It's easy to let this cut deeper
The taste could be sweeter, come on
You're too strong
And far gone
I'll keep my composure, just tell me
What this is really all about
I feel you tearing down
Castles in my head
When we're in different beds
And I'm a world away
Somehow you'll come find me
To close to stay on track
Tossing and turning back
So what's it mean
When every dream I have's about you now?
I can't believe
You get to me the way you do somehow
