

# Fire That Burns (feat. PVRIS)

## Circa Waves

Comfort me, oh comfort me  
I'm lighting up  
To see the day you run for me  
You run for me, my love Take a peek, oh take a peek  
Inside my head  
I promise you I'm not so scared  
I'm not so scared at all But I've been tied up  
For days  
And I've been thinking of the things that you say  
And I've been wound up  
Each way  
I need to let you know, to let you know today  
You call me a liar  
You call me so innocent  
But you lit the fire  
You lit the fire that burns  
The fire that burns inside us  
I'm not innocent  
I lit the fire, the fire, the fire  
I lit the fire Comfort me, oh comfort me  
I'm lighting up  
To see the day you fall for me  
You fall for me, my love Take a peek, oh take a peek  
I'm standing tall  
To try and see the final spark  
Of you and me my love  
But I've been tied up  
For days  
And I've been thinking of the things that you' say  
And I've been wound up  
Each way  
I need to let you know, to let you know today You call me a liar  
You call me so innocent  
But you lit the fire  
You lit the fire that burns  
The fire that burns inside us  
I'm not innocent  
I lit the fire, the fire, the fire  
I lit the fire  
I lit the fire I lit the fire You call me a liar  
You call me so innocent  
But you lit the fire

You lit the fire that burns  
The fire that burns inside us  
I'm not innocent  
I lit the fire, the fire, the fire
