## Fire That Burns (feat. PVRIS)

## **Circa Waves**

Comfort me, oh comfort me

I'm lighting up

To see the day you run for me

You run for me, my loveTake a peek, oh take a peek

Inside my head

I promise you I'm not so scared

I'm not so scared at allBut I've been tied up

For days

And I've been thinking of the things that you say

And I've been wound up

Each way

I need to let you know, to let you know today

You call me a liar

You call me so innocent

But you lit the fire

You lit the fire that burns

The fire that burns inside us

I'm not innocent

I lit the fire, the fire, the fire

I lit the fireComfort me, oh comfort me

I'm lighting up

To see the day you fall for me

You fall for me, my loveTake a peek, oh take a peek

I'm standing tall

To try and see the final spark

Of you and me my love

But I've been tied up

For days

And I've been thinking of the things that you' say

And I've been wound up

Each way

I need to let you know, to let you know todayYou call me a liar

You call me so innocent

But you lit the fire

You lit the fire that burns

The fire that burns inside us

I'm not innocent

I lit the fire, the fire, the fire

I lit the fire

I lit the fireI lit the fireYou call me a liar

You call me so innocent

But you lit the fire

You lit the fire that burns
The fire that burns inside us
I'm not innocent
I lit the fire, the fire
