

A

Cartel

And you can take this however you want
Yeah you can take this however you want
And don't be so so sure this is all it adds up to... you You're justified
But there's no justice if it's just a lie
No, go and find yourself
You will if you look inside
And I'll never know
And you never will
Still I'll never know
And you won't until someone stands up
Then you'll get some answers
And you can take this however you want
Yeah you can take this however you want
Just don't waste your breath unless you can save us
And tell me can you
Can you save us? Can you save?
Can you save us?
This can't go on without the meaning in the rhyme
Can you save?
Can you save us?
I can't go on
Out of rhythm with our time
(x2) Our days were numbered by nights on too many rooftops
They said we're wasting our lives
Oh at least we know that if we died
We lived with passion
They said we burned so bright
(And tell me, can you save us?)
Oh, whoa, oh at least we know, that if we died
They said we'd burn so bright, bright, no, whoa
But we're not wasting our lives
And if we die, oh maybe you, maybe you
And oh maybe you can save us) (We run and we run)
We know there's an answer
We know by going home we'll find it by ourselves
(Whoa) When what you want is what you're getting
(They're catching onto us)
(Oh whoa oh oh oh)
When all you can do is hide
(Don't be afraid) Oh maybe you can save us.
When all you can do is hide. Oh (We know there's an answer,

We know by going home we'll find it by ourselves)
