

Give It to Me

Darin

/Chorus When we're out anyplace
Will you give it to me
When we're out at the club
Give it to me
When I ask for it girl
Give it to me
Will you give it to me
Will you give it to me
When we hit in the jeep Will you give it to me
When we're out in the street
Give it to me
When we're deep in the car
Give it to me
Will you give it to me
Will you give it to me
When I get dressed I do it up
Just put your hands up
And I always know just what I want
Just put your hands up
The Dj's playin' all night long
just put your hands up
If it gets too hot I'm takin' it off
Just put your hands up
When I met you first time baby
I felt like I knew ya
And when I get that feeling girl
I will run to ya
When I'm in your presence babe
I just wanna hold ya
Baby you do everything for me
I think I might love you
/Chorus
If I tell you just what I want
Will you put your trust in me
If I bring you with me on the floor
If I throw my hands up in the air
Will you put your trust in me
All the fools can laugh but I don't care
Will you give your love to me
Sometimes I get crazy girl
I don't know 'f you notice
But I can take what's coming girl

If I got the motive
If you let me still hold you girl
Then I'm not gonna blow it
Can you handle me no matter what
And all of my emotions baby
/Chorus
Girl you know I can't wait to see you
Wait to be with you anyplace and time
Touching you waist is all right
Freakin' all day and all night
Kissin' your face all right
If you wanna chill it's all right
Pick up the pace
Give it to me
On the late night
Give it to me
I want more so give it to me
Once we start then I don't wanna stop
From the top give it to me
Don't be shy
Keep it moving
On the groove
Give it to me
I can take you where it's gonna be all right
/Chorus
