

All Year Long

Michael W. Smith

This Christmas season I wish you joy
The wonder in every girl and boy
I wish you gladness, the one [Incomprehensible]
Have good friends and family gathered near
May children's laughter in falling snow
Rekindle those sweet scenes from long ago
May every carol, each candle bright
Remind you why angels sang that night
If trouble finds you, this is my prayer
May peace come into your hearts and make you strong
And I wish you luck, the kind to last all year long
