

# Vault

## Keyshia Cole

I know there's love in my vault  
Only thing that I want is someone to want me, yeah  
Put your ear to my thoughts  
Only thing that I want is someone to hold me, hold me You know my heart's been defeated  
Yeah, it's beat to the core  
Who'll be there for my healing  
When I open that door?  
Boy, don't play with my feelings  
Just to fill in a void  
Put your love in my safe  
Oh, I'll keep it safe  
I know there's love in my vault  
Only thing that I want is someone to want me, yeah  
Put your ear to my thoughts  
Only thing that I want is someone to hold me, hold me Oh, it get a little lonely sometimes  
Sometimes I wish you would slide in on my carpet, baby  
Right here in my room  
Oh, I wanna make you breakfast in bed, baby, but naked  
Someone to hold me down, oh  
Someone to fit the crown  
Someone that deserves it  
Good life on purpose There's love in my vault  
Only thing that I want is someone to hold me, yeah, yeah  
Put your ear to my thoughts  
Only thing that I want is someone to hold me, yeah, yeah  
Yeah, yeah  
(one to hold me) Do it 'cause you want to  
(want me)  
(one to hold me)  
(want me)
