

Hands Are Clever

Alex Clare

Care about no history
I just wanna go and raise a family with you
raise 'em true, raise 'em properly
I'm built for cover do it built for speed
And I wanna go fast so gimme what I need now
I bet you hear that all the time
I've been watchin' you sit in bed
And I wanna hold you near
Words are clever
Hands are better
So let's put them together
Do you want what I got
cause I need your company?
If you doubt a thing that I say
And you're tired of playin' your games on me
I'm gonna get you those precious things
like old brand whiskey and chicken wings
See that's a promise I can keep
I like cashmere, I like your sweeater
but if you take it off we'll both feel better
You know I'll help you happily
If these lights are low enough
No one's gonna see you blush
Words are clever
Hands are better
So let's put them together
Do you want what I got
cause I need your company
If you doubt a thing that I say
And you're tired of playin' your games on me
There's only so much I can say
to convince you.
Though words they have their place,
Not in a bedroom.
Said, "I don't care if you go".
Well, that's a lie, cause I do.
Words are clever
Hands are better
So let's put them together
Do you want what I got
cause I need your company
If you doubt a thing that I say
And you're tired of playin' your games on me
Words are clever
Hands are better
So let's put them together

Do you want what I got
cause I need your company
If you doubt a thing that I say
And you're tired of playin' your games on me
