

Stockholm Lights

Diviners

A pair of jeans, a shirt or two
We didn't pack as if we weren't going back
It doesn't matter if it's true
I've got a feeling love will give us what we lack
The world is waiting up
The world is waiting half a step beyond our door, yeah
And if it's not enough
I wanna see the stuff the world has got in store
I wanna take it all in
I'm fallin'
This cityscape by night
Wanna catch in my photos
Where you go
Every corner twice as bright
They'll be my treasures
Forever
When I can't hold you tight
I'll see the Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
Tomorrow feels a year away
Like this second's the beginning and the end
But if in time it's yesterday
Your picture's gonna bring it home to me again
The world is waiting up
The world is waiting half a step beyond our door, oh-oh
And if it's not enough
I wanna see the stuff the world has got in store
I wanna take it all in
I'm fallin'
This cityscape by night
Wanna catch in my photos
Where you go
Every corner twice as bright
They'll be my treasures
Forever
When I can't hold you tight
I'll see the Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights

The Stockholm lights I'll see the Stockholm lights
The Stockholm lights
The Stockholm lights
The Stockholm lights
