

# Love You Forever

## Zendaya

So why're you're here acting like you don't  
Wanna be here, dancing on the floor  
Don't know really what you're waiting for  
For, for yeahBoy, I came here to party  
I just wanna keep pressing replay  
So turn it up  
I love the way it makes me feel  
Let's turn it up  
'Cause we live that lifeWe on that all night, get it right  
If you keep on moving like that  
I might love you forever  
We on that first time love high  
Just keep on moving  
'Cause I just might love you forever  
So love the way we going back and forth  
Dance until we can't do it no more  
Every night, stop it so speed it up, slow it down  
Yeah, baby, keep it movingBoy, I came here to party  
I just wanna keep pressing replay  
So turn it up  
I love the way it makes me feel  
Let's turn it up  
'Cause we live that lifeWe on that all night, get it right  
If you keep on moving like that  
I might love you forever  
We on that first time love high  
Just keep on moving  
'Cause I just might love you forever  
The way you move is so amazing  
So hypnotized, you take me away with you  
'Cause you already got me crazy  
CrazySo don't stop, let it rock  
Keep moving, keep, keep moving  
Let's play it over and over  
So don't stop, let it rock  
Keep moving, keep, keep moving  
Let's play it over and overWe on that all night, get it right  
If you keep on moving like that  
I might love you forever  
We on that first time love high  
Just keep on moving  
'Cause I just might love you foreverSo why're you're here acting like you don't

Wanna be here, dancing on the floor  
Don't know really what you're waiting for  
For
