

House of Cards

Tyler Shaw

The fire was burning out
My mind was filled with doubt
I long to feel alive
Don't know if I'll survive
yea But my hope was running low
You appeared out of nowhere
It was more than an illusion
More than I can ever know Baby it's magic the way you came around (yea)
You come in before I hit the ground (yea)
If something was missing in the house of cards
And all I needed was he queen of my hearts
It's Magic the way you came around
You didn't make a sound
My heart was screaming out
A trick under your sleeve
Ya you make me believe (yea) But my hope was running low
You appeared out of nowhere
It was more than an illusion
More than I can ever know Baby it's magic the way you came around
You come in before I hit the ground
If something was missing in the house of cards
And all I needed was he queen of my hearts
It's Magic the way you came around (yea)
It's Magic the way you came around
Baby it's magic the way you came around
You come in before I hit the ground
If something was missing in the house of cards
And all I needed was the queen of my hearts
It's Magic the way you came around (yea)
It's Magic the way you came around (yea)
