

Lipstick

Kip Moore

Nashville country nights, Detroit rock city lights
Arizona, California,
Texas desert, a Green Bay blizzard
Indiana, Louisiana I've rode alot of miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, I'm in and out of the cold
Itchin' to get my fix and kiss your lipstick Carolina north and south,
Alabama, Chi town
Dakota, Badlands, the heart of the heartlands
Way up above Dixie, Boston, Jersey, New York city
Spokane to Denver across the plains
Hills of Virginia, coastal main
I've rode alot of miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, I'm in and out of the cold
Itchin' to get my fix and kiss your lipstick Georgia peaches, Florida's beaches
A million dots on the map, but there's only one that brings me back
I've rode alot of miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, I'm in and out of the cold
Itchin' to get my fix and kiss your lipstick
