

Lady

Brett Young

I remember when I first heard your heartbeat
It had only been eight weeks
Standing there, starin' at that screen was the
First time you ever scared me God knows I don't know
Exactly what I'm doin', but
Good news, we got her to get through it I hope you look just like your momma
And love her like I do
You'll see close to perfect patience
If you watch your every move
You can always run to daddy
You'll always be my baby, but
Look at her, baby girl
And you'll learn
How to be a lady
Just how to be a lady
Mmh-mmh
I can make ya laugh till you cry
But she can make your tears dry, and
When you get your heart broke by the wrong guy
She can make it right I hope you look just like your momma
And love her like I do
You'll see close to perfect patience
If you watch your every move
You can always run to daddy
You'll always be my baby, but
Look at her, baby girl
And you'll learn
How to be a lady
Mmh-mmh
Just how to be a lady
Oh-oh
She'll hear you
She'll hold you
She'll help you through
She'll fix you
And me too I hope you look just like your momma
And love her like I do
You'll see close to perfect patience
If you watch your every move
You can always run to daddy
You'll always be my baby, but
Look at her, baby girl

And you'll learn
How to be a lady
Just how to be a lady
