# You Took My Heart

## Usher

You took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youIt's not the way that I feel
'Cause I'm really in love with you, hey yeah
You stole my heart then you ran away
What am I to say? I love you anyway, oh baby
(My love for you will never change)
My love for you will never change
'Cause I still feel the same
(The love I have for you will never grow old)
Oh no, I will always be there for youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youMy life had changed because of you
And I need you right here with me
There's no substitute for you
As far as I can see, you're the one for me
(My love for you will never change)
My love for you will never change
'Cause I still feel the same way
(The love I have for you will never grow old)
Oh no, I will always be there for youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youOh yeah, oh baby
I don't know why you left me all alone, oh yeah

I'm, I'm thinkin' about you babyEvery night and day, thinking of you by my side
Here with me is where you ought to be
Every night and day, thinking of you by my side
Here with me is where you ought to beYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving youYou took my heart and ran away
Forever in my heart you'll stay
(No matter what we've been through)
I'm going to keep on loving you
