

# On Main Street

## Los Lobos

Better to walk down the boulevard  
Feeling the sun on my face  
Watching him banging . kiss  
.got a real life  
Got a dream life  
No matter which way I go  
Down on the main street  
Down on . street  
Is where I feel like home  
Nothing better than . down the boulevard  
With a little time on my side  
All worries gone away to somewhere else

Down on the main street  
Going home is the only place I know  
Take me there with the slow  
Nothing better than . down the boulevard  
Get a little dirt on my shoes  
With my brothers and sister . all around  
got a real life  
Got a dream life  
No matter which way I go  
Down on the main street  
Down on . street  
Is where I feel like I am home
