

# Life of the Party

Charlie Wilson

Tonight your in for a special treat  
I brought you roses just to sweep of your feet (ohh)  
Done in plenty of times for us to make love  
But how about first we celebrate whats upHow does this sound  
The city is ours  
Let's take it down town  
To your favorite spot  
Don't try to hide your smile  
Let's go all out  
The way we always do when we're together  
Don't waste no time let's go  
Now girl  
Put on the dancing shoes tonight  
Slip on the dress, the one alike  
All eyes on us cause we are the life of the party baby(yeah)  
Sip a little something to break the ice  
Glass in the air, we're feeling nice  
With you on the dance floor we're the life of the party baby(yeah yeah)Girl  
The way we move  
Nobody does it better  
And under the moon and stars  
I could sing like this forever  
With you girl  
When the DJ is playing our song  
We gotta get up  
And show them how it's done  
Off you go to the middle of the floor  
Do your thing now do your thing girl  
Off we go to the middle of the floor  
Life of the party (yeah e yeah)The way we move  
Nobody does it better  
And under the moon and stars  
I could sing like this forever  
With you girl  
When the DJ is playing our song  
We gotta get up  
And show them how it's doneOooooohh weeeeeee
