

Let the Door Knob Hit Ya

Buddy Guy

Hey, you always bitching
About something I didn't get you
Hey, you always bitching
About something I didn't get you
So let the door knob hit you
While my damn dog should've bit you You said
That I never would quit you
You had voodoo working on me, girl
And you said that I would never quit you
Well, let the door knob hit you
While my damn dog should've bit you When you leave the other day
I don't believe I'm gonna miss you
And when you leave the other day, woman
I don't believe I'm gonna miss you
So let the door knob hit you
While my damn dog should've bit you
Let the door know hit you now
While should've bit you
