

# Intro (feat. Reggie Watts) [Live]

## Flight Facilities

Welcome aboard ladies and gentleman.  
Today's flight will be a little over one hour  
Just a few safety precautions before we head off  
We ask that you move about the cabin as much as possible,  
be sure to loosen those belts, and remember,  
all our flights are fitted with smoke detectors so do try not to get caught  
We'll be dimming the cabin lights for take-off  
Thank you for choosing to fly with Flight Facilities
