Right Here

Rotimi

RotimiBaby why you be flexing
Asking who texting
When I'm right here with you
Tell me what can I do
To make you sleep better
To make you see clearly
That there is know body else
That can get near me
Girl you know a nigga been on the bullshit
But we ain't really gatta talk about the bullshit
When I'm with you girl, you bringing up the other chicks
I ain't even, I ain't talk'n bout them
Im just trying to be in something different
You just want to know if I'm committed
Im just try'n to see if you don't know me
I just want to know if you the homie
Girl I, been had bitches and
Girl I, been had riches and
Girl I, been around the world twice
Im right here tonight
Im right here tonight
What the fuck is we talking about, bout
Nobody else in this house, house
And I'm right here tonight
And we right here tonight
Why the complaining, its not even worth it
We right here
Now I got her ass face down
In the mutha fucking bead
Beat the pussy up, like she owe a nigga bread
Eat the pussy up like she put it on some bread
Lock her ass down like she going in the feds, Aww Yeah
She work that pole like she strip
Play my position like pippen
My baby, she just be tripp'n
Just to get all my attention
What a nigga gatta do
Show you that I wanna be true to you
And none of them don't mean nothing
And none of them don't mean nothingGirl I, been had bitches and
Girl I, been had riches and
Girl I, been around the world twice

Im right here tonight
Im right here tonight
What the fuck is we talking about, bout
Nobody else in this house, house
And im right here tonight
And we right here tonight
Why the complaining, its not even worth it
We right hereI know I drive her crazy
Maybe I'm strung out baby
It could be something light baby
Wanna be all over you like gravy
You know I got the thing though
Wanna feel you every angle
I know what you wanna do
Fuck the bullshit they be saying to you
Cuz I know I wanna feel you like you feeling you baby
Im on my shit
And I love it when you just shut up and just ride this dick
Oh NoGirl I, been had bitches and
Girl I, been had riches and
Girl I, been around the world twice
I'm right here tonight
I'm right here tonight
What the fuck is we talking about, bout
Nobody else in this house, house
And I'm right here tonight
And we right here tonight
Why the complaining, its not even worth it
We right here
