

# Friends

## Empire of the Sun

Straight down the line I watch you disappear  
Before my eyes saw through solid air  
They said you're fine, that I shouldn't even care  
But I complains  
Sought to find you there Sorry doesn't cut it for me  
She isn't glide to unwind a while  
Mountains rising out of my head  
And i never looked this good  
Never looked this good No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
Way down the cloud  
The second that you left  
Score some spice attack gonna another share  
Take back the ride  
And I couldn't shake the fear  
While they got high  
Look what's really there Sorry doesn't cut it for me  
She isn't glide to unwind a while  
Mountains rising out of my head  
And you never looked this good  
Never looked this good No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
No one ever said that you'd be back here  
Now I gotta to be scared of my friend  
Now I gotta to be scared of my friend
