

# Nothin' New Under the Moon

[LeAnn Rimes](#)

Nowhere to go  
All night to get there  
Another nice try with Mr. Wrong  
Late night TV on my horizon  
National Anthem and I'm barely hangin' on  
Just a typical Saturday night  
Feeling like the rest of my life  
There was nothin' new under the moon  
Same old dance, same old tune  
Just wishes on stars that never came true  
Just one more night to get through  
But there was nothin' new under the moon  
'Til you  
Hey what a change  
Hey what a concept  
Here's a true heart wanting mine  
News flash, who'd ever thought you could  
Have the same feeling at the very same time  
Look at what your love's doing to me  
I can't believe I used to believe  
That there was nothin' new under the moon  
Same old dance, same old tune  
Just wishes on stars that never came true  
Just one more night to get through  
There was nothin' new under the moon  
'Til you  
Nothin' new under the moon  
Same old dance, same old tune  
Just wishes on stars that never came true  
Just one more night to get through  
There was nothin' new under the moon  
'Til you  
Nothin' new under the moon  
'Til you  
There was nothin' new under the moon  
'Til you  
Nothin' new 'til you  
There was nothin' new under the moon  
'Til you
