

# Goodbyes

Kelis

Heaven knows that, I love ya so  
But he don't know, what's real  
All I see, is you and me  
But you ain't tryin' to hear me I don't know what tomorrow's bringin'  
All I know is your doorbell's ringin'  
On that front, let's not waste more precious time  
When that cab door closes, I'm in it  
And when that plane takes off, you'll regret it  
Don't look like that, you know that makes me cry [Chorus]  
Hello, Goodbyes, just told so right  
Said I love ya, I want ya  
Don't wanna make ya mad  
Well I'm comin' home anyway  
[repeat]  
What should I do, to soothe your heart?  
'Cuz if I stay, might go astray, and fall apart, hear me out I don't know what tomorrow's bringin'  
Or how I'm going to make it tonight  
Without you or the other side of your back  
When that cap door closes, I'm in it  
And when that plane takes off, you'll regret it  
I know, babe, this is hard, but don't give up yet [Chorus]  
Hello, Goodbyes, just told so right  
Said I love ya, I want ya  
Don't wanna make ya mad  
Well I'm comin' home anyway  
[repeat] [Dialogue]  
Babe, I gotta make time for me... before I can make time for you  
So we can have time for us, ya know?  
[Bridge]  
Think about when I get back, baby  
Your heart don't have to be hurt, baby  
Till then, I'll miss you, miss you, miss you [Chorus]  
Hello, Goodbyes, just told so right  
Said I love ya, I want ya  
Don't wanna make ya mad  
Well I'm comin' home anyway  
[repeat]
