Body Language (feat. T-Pain)

Jesse McCartney

Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

'Cause what you want is right here

Oh she, oh she so international

The way, the way she get it on the floorI'm tryin', I'm tryin' to holler at you

I want to get to know you better

Parlez vous français?

KonichiwaCome and move in my way

Hey, little chica from Guadalupe

That thing you got behind you is amazing

Now, I don't speak Spanish, Japanese or French

But the way that body's talkin' definitely makes sense

It's her, her body, her body, her body language

It's her, her body, her body, her body language

The way she moves around

When she grinds to the beat

Breaking it down articulately

It's her, her body, her body, her body language

It's her, her body, her body, her body

That make me want to say hey...('ey!)

Hey...('ey!)Hey...('ey!)

It's her, her body, her body language

C'mon

Shorty, let me whisper in your ear

Tell you everything you wanna hearYou got my vote: Hottest Girl of the Year

Let's have a celebration, baby

Parlez vous français?

Konichiwa

Come and move in my way

Hey, little chica from Guadalupe

That thing you got behind you is amazing

Now, I don't speak Spanish, Japanese or French

But the way that body's talkin' definitely makes senseIt's her, her body, her body

language

It's her, her body, her body, her body language

The way she moves around

When she grinds to the beat

Breaking it down articulately

It's her, her body, her body, her body language

It's her, her body, her body

That make me want to say hey...('ey!)

Hey...('ey!)Hey...('ey!)
It's her, her body, her body language
C'mon

I'm lifting up my voice to say You're the hottest girl in the world todayThe way you shake

> You got me losing my mind You're banging like a speakerbox

Turn around; the party stops

Universal lady, let me take you away

Now, I don't speak Spanish, Japanese or French

But the way that body's talkin' definitely makes sense nowIt's her, her body, her body language

It's her, her body, her body language

It's the way she moves around

When she grinds to the beat

Breaking it down articulately

It's her, her body, her body, her body language

It's her, her body, her body, her body

You make me want to say hey...('ey!)

Hey...('ey!)

Hey...('ey!)

It's her, her body, body, body language

C'mon

Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

Ooo, that body's like music to my ear

'Cause what you want is right here
