

# Le Deux

## Hollywood Undead

I wanna tear it up, Before we tear it down  
I wanna light it up, Before we burn it down  
We gonna get fucked up, Drink 'til we all black out  
So fucking start it up, 'Cause you know it's goin' down Drink, got swag, Yeah we keep it the same

Mad dogged all up, It the back of the rain  
Ain't no balled up, Baby, got bills to pay  
Yeah I'm getting fucked up, As I'm changing lanes  
Oh my God, I'm one of a kind  
I'm a smash it up, It's about that time  
I'll be back to the party, By the end of the night  
Cause my hoe got needs, And I needs mine  
'Cause Funny Man, Is just so damn sexual  
That ass on my mind, Is so damn edible  
Feast your eyes girl, I'm so delectable  
Dick like Hulk, Yeah they call me incredible!

You got your dress pulled up  
I see you all around  
I know you ain't no slut  
But I know you're so down Smash it up, smash it up  
That bitch is off the Smash it up, smash it up  
And once I get that look  
Smash it up, smash it up  
I'll hit it all night long  
Smash it up, smash it up  
And once I smash I'm gone

Girl you're so hot, You could spark a match  
Me and funny wanna flip you, Like an acrobat  
And you could go back home, In a Cadillac  
Put my name in your phone, It's the man in black  
You got a big ol' mouth, And an ass to match  
You got my back in a scrap, And I'm a fan of that  
We could go home, And open up a can of that  
I'll put my prize in your box, Like cracker jacks  
But wait that's, Just me getting shit faced  
Let me pull out my bluetooth, And brief case  
And replace, Everything that I said wrong  
But then it won't be, A Hollywood Undead song You got your dress pulled up  
I see you all around  
I know you ain't no slut  
But I know you're so down Smash it up, smash it up  
That bitch is off the Smash it up, smash it up

And once I get that look  
Smash it up, smash it up  
I'll hit it all night long  
Smash it up, smash it up  
And once I smash I'm gone I wanna tear it up  
Before we tear it down  
I wanna light it up  
Before we burn it down  
We gonna get fucked up  
Drink 'til we all black out  
So fucking start it up Smash it crash it, What's only crackin'  
It's me and you girl, Now that's what's happenin'  
Let's take a little trip, To my stabbing cabin  
Grab the cam, It's lights camera action  
Let me take care, Of that satisfaction  
Grab a six pack, I'll back off the wagon  
Pour a little out, For Michael Jackson  
I'll smash it now, 'Cause I know she's down Smash it up, smash it up  
That bitch is off the Smash it up, smash it up  
And once I get that look  
Smash it up, smash it up  
I'll hit it all night long  
Smash it up, smash it up  
And once I smash I'm gone  
Smash it up, smash it up  
This bitch is off the Smash it up, smash it up  
And once I get that look  
Smash it up, smash it up  
I'll hit it all night long  
Smash it up, smash it up  
And once I smash I'm gone  
Smash it up, smash it up  
Smash it up, smash it up
