

# When You Need My Love

[Darryl Worley](#)

Two in the mornin', telephone rings  
Somehow I knew it who was  
Cause baby it's always the same old thing  
When you need my love You say it's over again and again  
This time you've had enough  
Girl, I know you've been fightin' with him  
When you need my love Oh I wish I could just say no  
And get you out of my heart  
It must be nice to have someplace to go  
When your world falls apart  
He'll call tomorrow with the same old lines  
And you'll forget about us  
And I'll be lonely until the next time  
When you need my love Chorus:  
Oh I wish I could just say no  
And get you out of my heart  
It must be nice to have someplace to go  
When your world falls apart Now someday, someone's gonna love me true  
And baby when she does  
Then I wonder what you're gonna do  
When you need my love Yeah then I wonder what you're gonna do  
When you need my love  
When you need my love When you need my love  
What are you gonna do  
ohhhhh
