

The Answer

Audio Adrenaline

I don't need a new face, all new friends, a new medicine
I don't need a big, big house, a new job with the same benefits
It's a crystal ship but she's sinking quick
Now my life's a mess and I want to change it[Chorus:]
And when I rise and when I fall
You are the answer
(Oh, Oh)
I know it's true cause I've tried it all
You are the answer
I can't believe how I feel, is this for real?
Now that I'm changing, you never know how far this could go
A new hope, some story arranging
It's a new sunrise through my newborn eyes
Cause I found the way, the truth, the life[Chorus x2]
[Bridge:]
Lights come out, it's a brand new start
Old illusions seem to fall apart
Every day we're making history
Never the same as we used to be
Flesh and bone, heart and soul
Hard drive, upload, reinstalled
A new sunrise with these newborn eyes
I found the way, the truth, the life[Chorus x2]Yes, You are the answer
