

# Want You Back

## Grey & LÉON

Like a coat that I sold in the summer  
Now I'm cold and I want you back  
Want you back  
Like an old baby doll that some other kid stole  
I want you back  
Want you backDigging out your old letters  
Sleeping in your old sweater  
Guess I should've known better  
'Cause you're gone, I want, I want, I want youRiding in your front seat  
Telling me you want me  
Nothing could assure your love like this  
Until I did  
Running through the red lights  
Making up a good life  
Couldn't we go back to what we had?  
Just like that  
'Cause I want you backLike a float in the ocean  
Our woodwork broke, but I want you back  
Want you back  
Like a kiss on the face that the rain washed away  
I want you back  
Want you backDigging out your old letters  
Sleeping in your old sweater  
Guess I should've known better  
'Cause you're gone, I want, I want, I want you  
Riding in your front seat  
Telling me you want me  
Nothing could assure your love like this  
Until I did  
Running through the red lights  
Making up a good life  
Couldn't we go back to what we had?  
Just like that  
'Cause I want you backDigging out your old letters  
Sleeping in your old sweater  
Guess I should've known better  
'Cause you're gone, I want, I want, I want youRiding in your front seat  
Telling me you want me  
Nothing could assure your love like this  
Until I didRunning through the red lights  
Making up a good life  
Couldn't we go back to what we had?

Just like that  
'Cause I want you back Now I know, now I know  
Now I got you in my head  
Now I know, now I know  
You're gone, I want, I want, I want you Running through the red lights  
Making up a good life  
Couldn't we go back to what we had?  
Just like that  
'Cause I want you back
