Small Town Big Time

Blake Shelton

Yea, Hollywood Boulevard Looking down, seeing stars 90210, Rodeo is Rodeo

Glad I hit it, glad I did it and I'd do it again

Yea, and hang with my friendsWith them red Maserati's and them tuned up bodies And everybody gonna be the next somebody

Yea, this place is a trip

Hey but meanwhile back in the stickSomebody's having a small town big time night Somebody's rocking the main street with red tail lights

Somebody's cranking it up or falling in love

Or keeping the buzz sipping on a little moonlight

Yea, they know how to rock

Out in the boondocks

Cause believe me I've been there

Somebody's having a small town big time night, somewhere Yea, two lane town squares Cotton queens, county fairs

With a water tank

Got 100 girls' names under the paintGlad I hit it, glad I did it and I'd do it again Yea, I miss my friendsWith them pick'em up trucks and them dirt road ruts

And all them country girls get to strutting their stuff

East, west, north or south

Yea you better believe, [?]Somebody's having a small town big time night Somebody's rocking the main street with red tail lights

Somebody's cranking it up or falling in love

Or lighting it up with a KFC spotlight

Yea, they all got the swerve

Down back in their hometown

I wish that I was there

Somebody's having a small town big time night, somewhereSomebody's having a small town big time night

Somebody's rocking the main street with red tail lights

Somebody's cranking it up or falling in love

And twisting it up and dodging them blue lights Yea, they know how to kick it

Way out past the limits

Cause baby I've been there

Somebody's having a small town big time night, somewhereYea, somebody's having a small town big time night, somewhere

I wish that I was there

Yea, I wish that I was there
