

# Colour me In

## Damien Rice

i tried to repress it  
then i carried its crown  
i reached out to undress it  
but love let me down  
love let me down...  
so i tried to erase it  
but the ink bled right through  
almost drove myself crazy  
when these words led to you  
and all these useless dreams  
of living alone  
like a dogless bone...  
so come let me love you  
come let me love you  
and then... colour me in.  
well i tried to control it  
and cover it up  
i reached out to console it  
but it was never enough  
never enough...  
so i tried to forget it  
that was all part of the show  
told myself I'd regret it  
but what do I know  
about all these useless dreams  
of living alone  
like a dogless bone...  
so come let me love you  
come let me love you  
and then... colour me in.  
so come let me love you  
come let me take this through the end  
of all these useless dreams of living  
in all these useless dreams...  
of all these useless dreams of living  
in all these old noes...  
so come let me love you...  
come let me love you...  
come let me love you...
