

Apple Tree

Wolfmother

Dear sir, can you remember me?
I'm the one who picked the apple tree
Dear sir, can you remember me?
I'm the one who picked the apple treeDear sir, can you remember me?
Have a look inside the family tree
Dear sir, can you remember me?
Have a look inside the family treeYour daughter is so fine to see
Unravel some mystery in me
When I see the apple in disguise
All my love I can't recognize
Dear sir, can you remember me?
I'm the one who picked the apple tree
Dear sir, can you remember me?
I'm the one who picked the apple treeDear sir, can you remember me?
I've seen the forest from the tree
Dear sir, can you remember me?
I've seen the forest from the tree
Your daughter is so fine to see
Unravel some mystery in me
When I see the apple in disguise
All my love I can't recognize
Dear sir, can you remember me?
I'm the one who picked the apple tree
Dear sir, can you remember me?
I'm the one who picked the apple tree
