

# Potter

[Tamela Mann](#)

What you're going through, is not the end of you its the beginning now.  
You are in his hands, be still and trust his plan, he'll make a way somehow. But while you're  
going through, let Jesus work on you.  
There's nothing else to do but be still and know.  
He is God alone, he came to make you strong.  
Though it hurts for a moment, let him work on you. All you have endured, is working for your  
good, joy is on the way.  
Every test and trial, last only for awhile.  
He's building up your faith. But while you're going through, let Jesus work on you.  
There's nothing else to do but be still and know.  
He is God alone, he came to make you strong.  
Though it hurts for a moment, let him work on you.  
You are the potter, I am the clay so have your way, work on me Lord. (2x)  
You are the potter, I am the clay so have your way, work on me. (4x)  
So while you're going through, let Jesus work on you.  
There's nothing else to do but be still and know.  
He is God alone, he came to make you strong.  
Though it hurts for a moment (3x)  
Let him work on you.
