

# Love Brings Change

Jamie Foxx

Maybe the world doesn't see you and maybe they don't understand.  
Just cause you don't see the footprints don't mean that there not in  
the sand.

I know your surrounded by strangers it feels so alone in your heart.  
But when everyone stands in the darkness no one can tell them apart.  
Now everyone has there own stories and nobodys ends quite the same.  
I love for the days in the sunshine up over the nights in the rain. But love brings change

Love brings change  
Love brings change  
Love brings change

Oh love brings change when you need it  
Love love love brings change

When you look eye to eye with an angel don't mean that its always the  
end.

Sometimes its the start of a new blessing that comes in the form of a  
friend.

Now we all live in fear of when that day will come when memories are  
all we can hold.

The fire that burns is a natural love and it keeps us both warm when  
its cold. Now all I wanna do is see ya laugh again and see that same joy in your  
eyes.

I know that your trying you just keep on smiling and everything passes  
with time. Cause love brings change.

Love brings change  
oh love brings change  
Love brings change its a fact  
Love love brings change  
love brings change

Be still (be still) wait on it (wait on it)  
on the blessings girl (on the blessings girl)  
In the morning time yeah

Be still (be still) wait on it (wait on it)  
Change is gonna come oh oh

I know that its hard on your spirit but don't let the pain take your soul.  
Even though you live with it don't give in to it  
cause inside were the same  
cause love brings change  
change
