

# Make U a Believer

Usher

If Young Metro don't trust you I'm gon' shoot ya You keep listenin' to what all your friends say  
Don't listen to 'em, they tryna take your place  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby  
Baby when I'm with you I don't take any phone calls  
When I'm with you I just turn all my phones off  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby  
Tongue game if you believe in that shit  
Stick game if you believe in that shit  
Shoe game, wrist game  
Tell me baby what you want of that shit  
Net worth bout the same as Netflix  
Chill with a nigga and I'll show you that shit  
I swear that my shit could turn into your shit  
We can call it our shit  
Yeah, yeah, yeah that's why them bitches hatin' over there  
Take you shoppin' like anywhere  
P or Sydney, I take you there  
And I get you with him, serenade them cookies  
What ever you want, I swear you can get it with me  
But you keep listenin' to what all your friends say  
Don't listen to 'em, they tryna take your place  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby  
Baby when I'm with you I don't take any phone calls  
When I'm with you I just turn all my phones off  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby 100 can't believe in that shit  
No games, I believe in that shit  
Girl if I think it, I said it, I mean it  
Believe in that shit  
I'm too rich to fall for that shit  
She ain't shit for me to cheat with  
You like bitches, I like bitches  
We can get bitches to keep it secret  
We got that ghetto love  
Nothing can break it up  
I roll a blunt  
You pop brownie, yo baby we touch on drugs  
Baby you got me so crazy  
Love me forever, you're obviously my baby But you keep listenin' to what all your friends say

Don't listen to 'em, they tryna take your place  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby  
Baby when I'm with you I don't take any phone calls  
When I'm with you I just turn all my phones off  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby Show you better than I can tell you, I  
bet ya  
Moment I met ya  
Knew that I was gonna get ya  
Too much sauce drippin' on me, don't be actin' like you actin'  
Don't be actin' like you don't see the shit that I've been doin'  
Who you think you foolin'?  
Nobody but yourself  
Damn girl, you fine girl, be careful  
Girl don't you be overthink  
Me plus you that equals win  
Tellin' you should be all in  
All in babe But you keep listenin' to what all your friends say  
Don't listen to 'em, they tryna take your place  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby  
Baby when I'm with you I don't take any phone calls  
When I'm with you I just turn all my phones off  
I can make you a believer, I can make you a believer  
I can make you a believer, I can make you a believer baby This your shit, believe
